Zoltar Financial Value Proposition

Stock Market is the perfect imperfect mechanism to apply Machine Learning, Statistical and Optimization methods to...

CEO

About Me

For over 20 years, my passion has been to use Computational Math and Statistics to uncover knowledge about cause-effect relationships and use derived solutions to capitalize on this knowledge. When passion meets expertise, magic happens!

Founder/CEO

Andrew N. Podosenov

Overview

We created a **self-service platform** that educates users on current stock market trends and predictions to let users form **better trading decisions** through access to our proprietary Zoltar Ranks combined with hyper-specialized AI assistant.

We achieve **outstanding prediction results** through through systemic and streamlined production of **Zoltar Ranks** that challenge the traditional technical and momentum trading with advanced data science and analytical techniques.

We developed a Retrieval Augmented Flow (**RAG**) to empower an uber-helpful **Zoltar Chat Assistant** with up-to-date and timely knowledge; and gave it the ability to provide guidance to users on methodology and use of Zoltar Ranks to generate returns from the market.

We created a well **documented, recurring, self-monitoring RPA processes** for data cleansing and transformation, feature engineering, machine learning and optimization, designed to generate 92 Machine Learning models and over 500 time series sub-models that are translated into Zoltar Ranks.

Vision

Beta Retail App

Research, user testing, live trading and improvement based on learnings, documentation

Zoltar Ranks Trademark

Seed Funding - **$5MM goal | 2 hires**

Blockchain Solution (ZF token)

Full solution to integrate automated trading and encode Ethereum network smart contracts tied to trading activity oF the ZF Index. ZF token will generate value in contrast to basic crypto tokens.

Series B Funding - **$25MM goal | 2 hires**

We are Building a Team

Our passion for making money is what unites us, our skills make it possible. We win together!

In search of the team we seek passionate individuals with high degree of ownership and a ‘can-do’ attitude. The sum of our individual achievements pales in comparison to what we can build together.

Each person on the team is eager to contribute to the final solution as large part of our incentives are tied to the company performance.

Positions Opening Soon

- ➔ Web/mobile/desktop front-end dev
- ➔ Product Designer
- ➔ Web3/Solidity dev

Thank you.
